WORK EXPERIENCE

Handles Coffee

March 2026 — Present

Assistant Manager | Graphic Designer

Los Angeles, CA

- Analyzing sales and demand trends to inform product assortment and pricing decisions for a new location launch
- Building process templates and workflows to support faster, more consistent decision-making as the team scales

DULCE USC Village

May 2020 — March 2026

Assistant Manager

Los Angeles, CA

- Managed product assortment and daily sourcing decisions across a multi-roaster coffee program, evaluating trends and quality to select the best mix for a 600-700 guest/day location generating \$14,000 in average daily sales
- Analyzed sales and inventory data to inform ordering, staffing, and pricing decisions, balancing demand with cost and availability
- Tracked performance metrics across shifts and used findings to identify and correct inefficiencies in real time
- Built training and process documentation to standardize operations and improve decision-making consistency across a 7-10 person team

Grifols Biological

Jun 2023 — Dec 2023

Data Analyst Intern

Los Angeles, CA

- Queried and analyzed large, historical datasets to build a KPI Tracker in Excel, surfacing performance trends and workload patterns across 15 buildings
- Built a predictive model from years of unstructured data, turning raw records into actionable recommendations that shifted the team from reactive to proactive planning
- Delivered findings and recommendations directly to stakeholders to support faster, data-informed decisions

NASA Micro-G NExT & NCAS

Oct 2019 — Aug 2021

Student Researcher and Team Lead

Los Angeles, CA

- Conducted structured, hypothesis-driven analysis of microgravity experiment concepts with a cross-functional student team, earning a spot in a national competition

EDUCATION

University of Southern California

December 2025

B.S. Mathematics

Los Angeles, CA
